Submit a 150 word essay on what your Catholic education has meant to you.

A Catholic high school education is a gift for and an investment in the future. For nearly 200 years, the Catholic education system in St. Louis has provided a rich educational experience for its students and families. Undoubtedly, the superior education received in Catholic schools has been the foundation of so many successful leaders in government, business, industry and more importantly the community at large. The quality college-preparatory education, coupled with the faith-centered human development of the individual student, comes together to produce men and women of outstanding character and accomplishment.

It is the mission of the church to share this gift of a Catholic education with anyone who truly desires it. In a time of economic turmoil, so many families are in need of assistance in making the dreams of future success for their child a reality. To this end, over 80% of St. Pius X families receive a part of over \$500,000 in tuition assistance. We recognize the sacrifice families undergo to make the dream of a Catholic education a reality and we stand ready to help in any way possible.

This brochure is an overview of the many options we offer to help afford a Catholic education. If at any time you have questions about this process, please do not hesitate to contact:
