

University of
Dayton

OFFICE OF ADMISSION AND FINANCIAL AID

As you help students find the right fit for their college education, we understand that cost plays a key role in each student's college decision. That's why the University of Dayton is committed to transparency and works hard to make our top-tier education affordable and accessible.

Our fixed net tuition plan means greater affordability and peace of mind for your families.
How?

- **No tuition increases.** UD students' scholarships and grants increase to offset any rising tuition costs, so families will pay the same amount each year. Through this plan, our students have reduced borrowing by more than 28 percent.
- **No fees.** No surcharges. No hidden expenses. At other universities, these can actually cost up to \$20,000 over four years.
- **Textbook scholarship.** We know that many students don't buy textbooks because of the cost. If your students visit UD and file the FAFSA by Feb. 1, they can receive a textbook scholarship worth up to \$4,000 over four years.
- **Study abroad scholarship.** We want your students to become global leaders, so we offer a \$3,000 study abroad scholarship. Students can study in China, Ireland or Spain at no additional cost.

By giving students the tools they need to graduate on time, we graduate alumni who are on a lifelong path to success and are prepared to make a difference in the world. If you or your families have any questions, please contact me, and I'd be happy to answer them.

Sincerely,

Robert F. Durkle, '78, '85
Associate Vice President
Dean of Admission and Financial Aid

P.S. Save the date to learn more about the University of Dayton and Miami University at an event for high school guidance counselors April 28-30, 2019. Tour campus and get the information your students need. [Visit our website](#) for more information or to indicate interest in attending.
