

Faculty FOCUS

Stephanie Robert
Science Department

Stephanie Robert: Science Department

Degree(s)/Degree-granting institution:

I have a BA in Chemistry and a BA in Education from St. Louis University. I have 15 hours towards my Masters in Secondary Education from UMSL.

Years teaching/Years teaching at St. Pius X:

This is my 21st year in Education. This is my 7th year at St. Pius.

Academic area:

I teach Chemistry and the Freshman Physical Science. This is my 5th year sponsoring National Honor Society.

Why did you choose to teach this field?

I became a teacher because I love to teach “fun facts” about science.

What do you like most about teaching as a career?

I love working with the students at St. Pius and watching the students learn and enjoy science. The students at St. Pius X have so much energy for learning!

Outside of work, what are you passionate about?

Outside of work, I enjoy spending time with my husband, John, and children, Thomas (21) and Samantha (20). In addition, I enjoy spending time with my extended family at our family Christmas Tree farm.

What are you currently reading for enjoyment?

I am currently reading Neil Tyson’s “Astrophysics for People in a Hurry”.
